LR 62, 52

SPEAKER MARVEL: Okay, item #5 has to do with motions and the Clerk will read LR 52. Let's go with LR 62 since both Senator Schmit and Senator Hoagland are not here yet and that is Senator Clark's resolution.

CLERK: Mr. President, LR 62. Read. It is found on page 1581 of the Journal.

SPEAKER MARVEL: The Chair recognizes Senator Clark.

SENATOR CLARK: I move for the adoption of the resolution. What this resolution does is to admonish Congress that we are going to have multiple use areas in public lands. Now what is happening today is that most of these lands are going to single use areas instead of multiple use areas. Now if you are interested in energy at all, the only way you are going to get energy is to explore for energy. The way you explore for energy is to go on public lands. I heard a story the other day that said if you replace all of the trucks in the country and took them out, it would take about 128 million horses to replace them. You would be walking around in about three feet of horse manure in about a year. The thing that we have got to do is to explore for oil. We also have to harvest the timber. If you are not going to harvest the timber, you are going to close down mills which has already happened over in Colorado because they will not allow the harvesting of the timber. Now timber has to be harvested and replaced. If not, you are going to come into the same thing with timber as you are coming in with oil at the present time and I would move for the adoption of the resolution.

SPEAKER MARVEL: Is there any further discussion on LR 62? All those in favor of the adoption of LR 62 vote aye, opposed vote no. We are voting on LR 62. Have you all voted? We are voting on LR 62 as explained by Senator Clark. Record the vote.

CLERK: 27 ayes, 0 nays, Mr. President.

SPEAKER MARVEL: Senator Schmit, are you ready to take up LR 52?

CLERK: Senator, it is on page 1422 of the Journal. Mr. President, LR 52 offered by the Agriculture and Environment Committee and signed by the members thereof. Read.

SENATOR SCHMIT: Mr. President and members of the Legislature, we have another resolution on agricultural chemicals
